

## Corrigendum

There is a typo in the labels for Figure 1 of the paper we published at the AER “The Long Term Effects of Welfare” (AER 106(4): 935-71, April 2016). The figure labels should read “Accepted” and “Rejected” instead of “Accepted non-widows” and “Rejected-widows”. We are including a corrected Figure here.

We also noticed a small error in the text in the description of the data collection. The text reads: "Our efforts have yielded approximately 80,000 child recipients whose mothers applied to the MP program between 1911 and 1935 in eleven states:"

it should read:

"Our efforts have yielded approximately 80,000 child recipients whose mothers applied to the MP program between 1911 and 1935 in **fourteen states. We study eleven, with records for rejected applicants:**"
